ANNOUNCEMENTS

2015 Capital Cost, Operating Cost and Custom Processing Fee Allowances

For the January through March 2015 billing period invoices, royalty clients received estimated monthly cost deductions that were based on actual allowable costs for the 2013 production year, multiplied by their estimated Facility Effective Royalty Rates (FERR), divided by 12 (months). The information in the 2014 AC2, AC3, and AC5 documents was used to calculate the 2014 actual capital cost, operating cost and custom processing fee allowances. The calculations are reflected in the April 2015 Initial Annual Billing Period (IABP) invoice, issued in June 2015. The 2014 actual allowable costs will become the royalty client's 2015 allowable cost estimates.

Commencing with the April 2015 billing period, royalty clients will receive monthly deductions based on their 2015 allowable cost estimates, multiplied by their new FERR, minus the total deductions received in the January through March 2015 billing period invoices, divided by the number of months remaining in the year (e.g. 9 months as of the April billing period). If a cost estimate is manually processed in the January, February, March or April 2015 production months, the system does not replace it with a new cost estimate in the April Initial Annual Billing Period (IABP) invoice.

If a royalty client requires a change to the 2015 go-forward allowable cost estimates and/or the FERR, a written request with supporting documentation must be submitted to the Gas Royalty Volumetric and Cost Reporting team (see Chapter VI, Section 1 of the Guidelines). These estimates must be calculated and submitted at a client/facility level.

Gas Royalty Fax Number Has Changed

Please be advised that the fax number 780.422.8732 is no longer in service. Please send all faxes to 780.427.3334.

MONTHLY INFORMATION

Pricing for Gas and Gas Products

For pricing on gas, gas products, and transportation information for March 2015, please refer to the Information Letter.

The monthly default sulphur price for **April 2015** is **$127.49**.

Below are the annual sulphur default prices:

2011	2012	2013	2014
$116.36	$98.02	$53.60	$86.18

April 2015 Royalty Due July 31, 2015

Royalty clients are to remit the total amount payable shown on the July 2015 Statement of Account by July 31, 2015. If the amount payable includes accrued current period interest, the interest has only been accrued to the statement issue date. Clients must also include the additional interest that has accrued from the statement issue date to the date of payment, using the per diem amount provided. Current period interest will not be charged on current invoice charges for the production month of March if it is paid in full by July 31, 2015.

The July 2015 Statement of Account shows your amount payable as of the Statement issue date. It includes any outstanding balances from your previous statement, your April 2015 invoice amount and any applicable current period interest charges. It also identifies refunds resulting from overpayments.

Note: If the due date falls on a non-business day, the next business day will apply as the due date *except for the month of March due to the Government of Alberta's fiscal year end.* In this situation, the due date will apply previous to the non-business day as the due date.

Cheques are made payable to the Government of Alberta and must contain the G94 number.

May 2015 VA4 due July 15, 2015

The VA4 forms for the production month of May 2015 are due in the department offices by July 15, 2015.

Note: If the due date falls on a non-business day, the next business day will apply as the due date for VA4 forms.

Petrinex Deadline Submissions

The Petrinex deadline for SAF, OAF, and Volumetric submissions are posted on the Petrinex website "Reporting Calendars" under Calendars. ***Changes to this calendar will be posted on the Petrinex website home page in "Broadcast Messages."***

Interest Rate June 2015

Alberta Energy's interest rate for June is **3.85%**.

March Provisional Assessment Charge

The summary of Provisional Assessment Charges for all production periods in the March 2015 billing period was:

First Time Provisional Assessment	Reversals of Provisional Assessments (Net)	Net Provisional Assessment
$17,920,560.47	($1,996,882.66)	$15,923,667.81

March Penalty Charges

The penalty table below shows at the form level, the total penalty charges and reversals, for the March 2015 billing period.

Forms	Penalty Charges	Penalty Reversals	Net Penalty Charges for 2015/03
AC2	$68,100	($40,800)	$27,300
AC4	$0	$0	$0
AC5	$600	$0	$600
NGL1	$0	$0	$0
VA2	$0	$0	$0
VA3	$0	$0	$0
VA4	$0	$0	$0
Total	**$68,700**	**($40,800)**	**$27,900**

Production Allocation Discrepancy (PAD) Potential Royalty Impact

As of the March 2015 billing period, the potential royalty dollar impact is estimated as $3.2 million, distributed as follows by production year:

2014	2015
$2.0 million	$1.2 million

Note: These values are not intended to show that Crown royalty has been understated but do illustrate the consequences of incorrect reporting.

Well Event Measured Depth Determination Letter

The department has issued a "Well Event Measured Depth Determination Letter" under the Report Package DOE – Gas to facility operators via Petrinex on June 1, and June 15, 2015. This letter shows the confirmed Measured Depth (MD) of each active well event that will be used to calculate the Depth Factor (DF) of the quantity component rate under the Alberta Royalty Framework formula. A well event that is not listed on the letter and does not have a confirmed MD will receive a DF of 1. When the changes to the MD are confirmed by the department, a letter is issued to a facility operator who reports changes through Petrinex to well event attributes affecting MD. All changes to the MD are applied on a go forward basis only. Facility operators are advised to submit well event attribute changes by the last day of the calendar month in order for timely determination of MD.

NGDDP Confidential Wells

Wells designated as "confidential" will be reviewed prior to the removal of the "confidential" status, if the directional surveys and completion reports are provided to the department. Send directional surveys and completion reports to GasRoyaltyPrograms@gov.ab.ca

If you have any questions, please contact Lily Hiew in Gas Royalty Features at 780.427.1550.

INFRASTRUCTURE DATA

Business Associate ID Listing

The BA Identifiers Report is a directory of Business Associate (BA) names, codes, status (e.g. struck, active, amalgamated, etc.), status effective dates, and effective August 2004, and includes Working Interest Owner (WIO) role start/end dates.

This report is also published daily on the Petrinex website.

The Department reminds Business Associates to review their WIO role to ensure that the start and end dates are reflected correctly. If the BA does not have an active WIO role, the operators cannot allocate volumes to the BA for the relevant production periods through the SAF/OAF allocations.

- If a BA has a WIO role, then that BA can receive SAF/OAF allocations from the WIO role start date forward.
- If a BA has a WIO role with an end date, then they can only receive SAF/OAF allocations from the WIO role start date until the end date. Any SAF/OAF allocations after the end date will be rejected.
- If a BA does not have a WIO role start date, then that BA cannot receive SAF/OAF allocations.

Please contact Client Registry/Crown Land Data at 780.422.1395 or CrownLandDataSupport@gov.ab.ca if you have any questions regarding the information supplied in this article.

Client Status Changes

Clients must ensure that all royalty documents are completed using only valid client names and IDs. It is critical that royalty clients use current legal client names and their appropriate IDs on all documents to ensure accurate royalty calculation and to prevent provisional assessment and penalties. Rejects will occur when invalid IDs are used.

If you require information regarding client status changes, names, or IDs, please contact Client Registry/Crown Land Data at 780.422.1395 or CrownLandDataSupport@gov.ab.ca.

Nova Tolls - Multiple Gas Reference Prices

Royalty information related to the implementation of the Factor Model negotiated with industry for determining Multiple Gas Valuation Prices is provided on the Natural Gas website's Royalty Related Information page under Facility Royalty Trigger Factors and Meter Station Ties.

REMINDERS

Energy Response Inbox Changed

Please be advised that response.energy@gov.ab.ca has been replaced with oil.gas.royalty@gov.ab.ca. If you have general questions about royalties direct your queries to the new address.

Soldier Settlement Board (SSB) Remittance Forms

The Department of Energy developed a new SSB remittance form and sent notification by letter to clients in January 2015. The form is a new requirement in submitting payments to the Department. The form will enable the accurate allocation of your SSB payments to the proper account number.

The remittance forms are located on the Energy website under Forms and are also be available on the Soldier Settlement Board webpage.

If you have any questions please contact Management Information at ManagementInformation.Energy@gov.ab.ca.

Royalty Deposit Adjustment

The annual royalty deposit adjustment is calculated as 1/6th of the client's previous year's royalty multiplied by a factor. The factor of 0.88 is calculated by dividing the current year's long term gas price for 2015 of 3.50 by the average 2014 Alberta Reference Price of 4.00. The adjustment will be processed in the Initial Annual Billing Period (IABP), June 2015 calendar month (April 2015 billing period invoice).

If you have any questions, please contact Melanie Al Ramahi at 780.643.0964.
